DETAILED ACTION

THIS OFFICE ACTION IS IN RESPONSE TO APPLICANT'S AMENDMENT FILED 7/19/2010.

Status of Claims

- Claims 1-13, 19-20, and 27-28, and 31-47 were canceled.
- Claims 14-18, 21-26, and 29-30 are pending.

Allowable Subject Matter

- [1] Claims 14-18, 21-26, and 29-30 are allowed.

Reasons for Allowance

[2] The following is an examiner's statement of reasons for allowance. This application has been reviewed by the examiner and meets all formal and substantive (i.e., statutory) requirements and the language of the claims is enabled by, and finds adequate descriptive supported in the application disclosure as originally filed.

The primary reason for the allowance of the claims is the presence of limitations in the independent claims, which are not found in the prior art references. The examiner believes that the record of the prosecution as a whole makes clear his reasons for allowing a claim or claims. However, the examiner would like to point out one or more specific reasons and/or limitations that the prior art fails to disclose and/or make obvious. Hence, as for Claim 14, the prior art, incorporating other corresponding limitations as set forth above, does not teach of a withdrawal recess which is displaced longitudinally on a circumference of the pin and apart from the insertion recess, and which withdrawal recess permits withdrawal of the pin from the aligned passages, when the withdrawal recess is aligned with the retaining element. Claim 15 is dependent upon claim 14.

As for claims 16 and 18, the prior art does not teach of on the components being closed at one end, such that the aligned passages are closed at one end (claim 16), as well as wherein the passage of one of said components includes two coaxial spaced-apart sub-passages and the passage of the other component is disposed between, and aligned with, said sub-passages when the components are connected to each other, to form said aligned passages (claim 18). Claim 17 is dependent upon claim 16.

As for claim 21, the prior art does not teach of the resilient element including an elastomeric support and an engagement element, and wherein the engagement element of the retaining element of the retaining element abuts the elastomeric support. Claims 22-26 and 29-30 are dependent upon claim 21.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee, and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
